主要產品

產品範圍包括重切削加工、高速及高效率的定柱型龍門加工中心機，到多功能化的五面及五軸、龍門升降型加工中心機等設備。此外，將持續發表主軸升降型、動柱型龍門加工中心機；應用產業包含一般精密零件加工、塑膠、汽車、鐵路、航太、造船、水力發電、風力發電等。

企業沿革

- 2005年 導入企業資源管理系統ERP。
- 2006年  登記公司商標於下列國家：台灣、中國、韓國、美國、土耳其、印度、泰國符合ISO 9001品質(由RW TUV認證)。
- 2007年 VB/VF/VH系列產品取得  認證(英國AMTRI/台灣PMC)。
- 2008年 開始導入豐田製造系統(TPS)。推動 4S活動。VH系列龍門加工中心榮獲2008台灣精品獎 。
- 2009年 員工訓練課程增列「學習型組織-第五項修鍊」。
- 2010年 推動企業轉型TPM及學習性組織。推行人才精實系統。導入「人員晉升評鑑制度」。
- 2011年 NF系列龍門加工中心榮獲2011台灣精品獎 。推動商品情報一元化、建立產業技術模組。推動以「員工第一」的學習性組織。

國際競爭力

- 一、自有品牌商標 ，取得多國商標註冊證書。
- 二、剛性結構專家：透過最佳肋型結構分析、最佳應力變形分析、最佳輕量化分析，以確保設計之最佳化。
- 三、切削主軸專家：按照客戶所需加工條件，喬崙進的機器能搭配各式主軸，範圍從4,500~24,000 rpm。
- 四、大型加工專家：擅長於製造門型加工機、動樑門型加工機、動柱型加工機。
- 五、多角度加工：一次滿足顧客加工需求。提供非常完整的附加頭產品系列，適應各種角度變化加工。

Business Items

Wide range products are available for different machining purposes: heavy cutting; high speed; efficiency, 5-face cutting, 5-axes cutting, cross beam moving etc. In addition, we will launch the new developing of machines with spindle quill traveling and column moving features in coming years.

Our products are applied in the field of Components Machining, Plastic, Motor, Train, Aerospace, Vessel, Hydropower, and Wind Power.

History

- 2005 Implementing ERP system.
- 2006  trademark registration application for the countries of Taiwan, China, Korea, USA, Turkey, India and Thailand. ISO 9001 quality system certified by RW TUV.
- 2007 VB/VF/VH series passed  certification(By AMTRI in UK, By PMC in Taiwan).
- 2008 Implementing the Toyota Production System(TPS). Operating 4S activities. VH series double column machining center won the honor of 2008 Taiwan Excellence Award. .
- 2009 Operating "The Learning organization-The Fifth Discipline staff training."
- 2010 Operating enterprise transformation "TPM system"and "Learning Organization". Operating "Lean Talents System". Operating "Training-promoting System".
- 2011 NF series double column machining center won the honor of 2011 Taiwan Excellence Award. . Integration of product and information. Establishing industrial technology modules. Operating the learning organization of "Staff First".

Export Competitiveness

- I.  trademark gets registration in multi-countries.
- II. Rigid structure expert: through the rib structure arrangement analysis, Stress and deformation and lightweight analysis to ensure the optimal design.
- III. Spindle expert: according to the machining condition from customers, the machines of VISION WIDE are compatible with all kinds of spindle, ranging from 4,500~24,000 rpm.
- IV. Large-scale machining expert: excellent at manufacturing double column machining center, beam-moving machining center and column-moving machining center.
- V. Multi-angle machining: to meet customers machining needs at once. Providing very complete head attachment product line to adapt different angles machining.
