Export Competitiveness

- OEM and OBM dual business system: OEM for global big companies to get stable income and strengthen manufacture technic. Develop self brand for niche markets to have better understanding on consumer demand.
- II. Integration of production and marketing to control quality: Set up streamlined manufacturing processes to assure capacity and lead-time. Produce key parts by

ourselves. Set up a laboratory and strict quality inspection procedure to assure quality.

III. Beauty, Convenience, and Quality are our product DNA: Easywell started by hardware. Then, changed to manufacture traditional water filters. In recent years, easywell has spent a lot of efforts to upgrade the water filters to be with good design and much convenience. Our goal is to make life better.
