大愛感恩科技成立於2008年，是全球第一家結合環保人文且完全回饋的公益企業NPC (Non Profit Company)。「大愛感恩」科技取名看似簡潔，涵意卻是深遠；人生的宗旨即是「大愛」，生活的教育即是「感恩」。秉持「大愛眾生，感恩大地」的精神，大愛感恩科技由食、衣、住、行、資訊等五個領域的實業家共同捐資成立。公司核心價值「環保人文、愛心接力、完全回饋」代表著愛的接力，善的循環，透過大愛感恩科技回收系統、整合上、中、下游合作夥伴的綠色供應鏈，致力推廣以寶特瓶回收再製的環保織品，並將投資及每年盈餘全數回饋慈濟作為國內外賑災及社會公益之用。

環保紡織產品「心」時尚

大愛感恩環保產品走在綠色產業最前端，不僅全系列產品以回收寶特瓶為原料，更以原

色及不後染為目標，落實節能減碳節水製程。為達綠色永續，未來更朝完全工業循環再利用「搖籃到搖籃®」的藍圖邁進。「DA.AI」環保品牌的服飾再生織品，秉持「高雅、簡約、端莊及服儀人文之美」，在流行的時尚界中成為一股清流，宣導「生活置換代替鼓勵消費」的低碳生活概念，尤其以環保行動力和愛心無遠弗屆的傳播力，做到「淨化人心、祥和社會」的願景。

打造環保人文教育平台

大愛感恩科技不只以環保再生產業自限，更以企業社會責任為使命。員工教育訓練涵蓋各種面向：人文講座、職場專業等，並從每次對外分享機會，培育主管、同仁成為專業環保與人文講師。鼓勵員工以志工的精神進行職工的任務，即所謂「職志合一」的人文精神。

研、社區設計不同課程，每年300場以上的分享、國內外參展與推廣活動。更首創全世界獨一無二的環保再生紡織品「生產履歷」，讓消費者了解產品再生材料的來源，與製程的節能減碳節水，並藉由 QR Code 了解產品背後的人品典範及人文意涵。

環保品牌國際品質優勢

大愛感恩在環保的努力備受外界肯定，連續三年榮獲經濟部「綠色典範獎」及「台灣精品獎」，今年更榮獲「國家永續發展獎」與「國家環境教育獎」，同時被遴選為經濟部「中堅企業重點輔導對象」。成立以來入選經濟部「台灣企業誠信故事專輯」，獲得「小巨人獎」，更於2013年榮獲《經理人月刊》「台灣中小企業社會責任獎」，今年《天下雜誌》「天下企業公民獎」，並以成為企業社會責任的典範為努力的目標。

2013年通過英國認證協會ISO14001/ISO9001認證，連續三年獲得荷蘭Control Union GRS (Global Recycle Standard) 認證及續證，亞洲第一張環保再生產品的搖籃到搖籃證書，

並有超過470項產品獲得台灣MIT微笑標章認證，是目前唯一獲得最多環保紡織品MIT認證的品牌，同時建立大愛感恩科技的綠色供應鏈，對環境、健康及安全進行全面性管理。

人人都有使命

在對外環保理念分享時，李鼎銘總經理常說：「人人都有使命，也都有一份力量。」如何喚起大眾的環境意識，就是從自身做起、帶動，用行為去影響別人，像是彎腰撿拾放錯地方的資源 (垃圾，也是城市礦產) 看似小動作，卻能讓世界因此改變。環保教育不是理想，只要每個人身體力行，讓善的力量變大，美好的未來是可以期待的。大愛感恩期盼成為拋磚引玉的先鋒，帶動更多有心人士與團體投入環保，一起用愛和智慧，守護我們的土地。■

DA.AI was jointly founded in December 2008 by five different fields' entrepreneurs. It is Taiwan's first non-profit company combining environmental protection and charity works. The name of DA.AI Technology although is clean and short, it carries a big meaning of "Great Love" in Chinese, which reminds us to "love all creatures and show appreciation to the Earth." DA.AI, adhering to its core values of "3C" - Culture of Environmental Protection, Circle of Love and Contribution to Society, serves as a selfless social welfare platform. The platform sustains a Circle of Love, which begins with Tzu Chi environmental promoters, is sustained by our technically advanced business partners, and contributes to society. All of DA.AI's capital and net proceeds are donated to Tzu Chi Foundation to support disaster relief and public welfare programs.

Eco-Products with Fashion in Heart

員工家庭環保日

DA.AI's eco-products are non-polluting--never piece-dyed--and most are produced with 55% to 100% of recycled PET bottles. This process not only reduces a lot of water consumption and chemical pollution, but also conserves energy. The next step for DA.AI is to reach the sustainable green goal by ensuring. It's products are easy to recycle in a cradle to cradle designed closed-loop process in industry.

The design of DA.AI eco-products are based on unique combination of elegance, simplicity and dignified with the "Humanistic Principles behind DA.AI Eco Clothing". In DA.AI marketing strategy, to promote the eco concept of "replacing living necessities instead of encouraging consumption" also becomes a pure stream of love in current fashion world. Especially, environmental protection action and far-reaching spread power of love purify people's minds and ultimately create a more peaceful world.

Creating Eco-Humanitarian Educational Platform

DA.AI technology is not only positioned as eco industry, but also enthusiastically implements Corporate Social Responsibility to create an eco-humanitarian educational platform as our core mission. DA.AI provides weekly inner education and training courses for employees, including humanitarian, environmental topics, professional textile knowledge, and etc. In addition, we also train managers and staffs to be professional teachers to promote environmental protection and humanitarian.

BSI ISO14001與 ISO9001認證 BSI ISO14001 and ISO9001 Certifications

Every year, more than 300 presentations, recycling center visits and exhibitions are provided to schools, industry, government and communities, with diversely designed eco-topics.

DA.AI Technology has also developed “Production History Card”, a complete production traceability management system. It lists the production process steps, beginning at Tzu Chi recycling stations, and continuing through recycling plants, chemical fiber plants, to garment supply chain factories. Carefully showing the time, source, number of PET bottles used and other information helps maintain high quality control, and supports dissemination of recycling status and results data.

ECO Love-Friendly Brand offering international competitive advantages

The effort of DA.AI in environmental protection has been well recognized. DA.AI has received “Green Classics Product Award” and “Taiwan Excellence Award” by MOEA for three consecutive years. This year, DA.AI even won “National Sustainable Development Award” and “National Environmental Education Award”. We also were selected as the second Taiwan “MITTELSTAND”: counseling targets, and received “Rising Star Award” and “Taiwan Corporate Integrity Album” by MOEA, Taiwan, “CSR Award” by Global Views Monthly, Manager Today Magazine, and CommonWealth Magazine.

In year of 2013, DA.AI received ISO9001 and ISO14001 certifications by bsi. We actively monitor the quality control of its textile products and have achieved The Netherlands Peterson’s Group Control Union Global Recycling Standard (GRS). The famous DA.AI Grey Eco Blanket is Cradle to Cradle Silver Certified^{CM} by Cradle To Cradle Products Innovation Institute (C2CPPI), USA. Moreover, DA.AI Technology is the only eco brand in Taiwan which has received Made-In-Taiwan (MIT) Smile Label for more than 470 different eco products.

By creatively combine environmental protection, technology, charity and humanitarian culture, DA.AI Technology aims to bring its Eco Love-Friendly

Brand--DA.AI to the international stage, promoting Taiwan’s humane power to a global audience. With this unique socially responsible business model in mind, DA.AI hopes to encourage and inspire more businesses and organizations to join its efforts in protecting our Mother Earth and to give back to society.
